[Label code](#) ECF0024

[Back of WRAP LABEL:](#)

Bug & Mildew Control from our Defender range, is a ready to use pesticides free spray for use on ornamental and edible crops. Controls a wide range of pest species including Whitefly, Aphid, Red Spider Mite, Mealybug, Scale and Psyllid. Due to the physical mode of action these pests will not become resistant to the application. It also protects against powdery mildew by washing off the spores and foliar feeds on applying. HAS NO HARVEST INTERVAL, children and pets can continue to use the treated area after application.

DIRECTIONS FOR USE

Apply early morning or late evening. Always do a test before full application to ensure the plant can withstand the application. Do not apply in full sun as this may risk scorching of the plant.

SHAKE WELL before application. Turn nozzle to the 'ON' position, when finished applying turn back to the 'OFF' position.

APPLICATION RATE Apply thoroughly to upper and lower leaf surfaces. Re-application can be applied weekly to keep full control of the pests.

PRECAUTIONS: Keep stored out of the reach of children and pets. If sprayed in eyes or on skin wash in clean water. Wash hands after use.

Store out of direct sunlight above 10°C and below 25°C.

Contents: A unique blend of plant safe, physical pest control surfactants.

Includes nutrients for healthy plant growth, Magnesium, Iron, Manganese.
