**EUH401:** To avoid risks to human health and the environment, comply with the instructions for use.

**When to use:**  
Organ-X Turbo Slug Lentils should be applied to protect emerging seedlings and to decrease leaf or fruit damage caused by slugs. Apply when infestation begins or first symptoms appear. Apply during late evening or early morning in mild, damp conditions when slugs are most active. Apply a maximum of 5 times per season with an interval of a minimum of 7 days between applications. Slugs cease feeding and retreat below ground to perish without leaving behind trails of slime.

**Where to use:**  
Organ-X Turbo Slug Lentils can be used in all home garden crops outdoor and protected, including lawns and non-cultivated surfaces. Crops: asparagus, Aubergine, basil, beans without pods - dry, beans without pods - fresh, broad bean - fresh, broccoli/calabrese, brussels sprout, bulb onion, cabbage, cardoon, cauliflower, celery, chick pea (outdoor), corn, cucumber, dill, fennel, globe artichoke, kale, kohlrabi, leek, lettuce, lawn, leek, lettuce, lupin, melon, mint, oriental cabbages, ornamental garden plants, parsley, poppy, red mustard, rhubarb, rocket, rosemary, runner bean, salad onion, sea-kale, shallot, soy bean - dry (outdoor), spinach, squash, strawberry, sunflower, sweetcorn, thyme, winter squash and pumpkin

**How to use:**  
Use 40 lentils or 0.6g per m<sup>2</sup> of product per square metre. Scatter evenly onto moist bare soil trapped in leaves. DO NOT place in heaps. If slugs continue to cause damage a repeat treatment may be necessary up to a maximum of 5 per crop. Allow a minimum of 7 days between applications. Organ-X Turbo Slug Lentils must not be applied near a water course.

Organ-X Turbo Slug Lentils provides gardeners and growers with years of research and innovation, developing the fastest, most effective bait for the control of slugs, protecting and reducing damage to plants. Each lentil is packed with higher levels of protein (14%) made from 95% Elite Wheat; Max strength Ferric Phosphate (25g/kg) is evenly distributed inside the lentils matrix using a patented extrusion process. Slim nibble edges and premium ingredients promote rapid uptake from all adult and juvenile slugs. Approved for organic use (OF&G), Organ-X Turbo Slug Lentils are dust free, rain-fast and mould resistant. All slug lentils are uniform in shape, size and weight for easy application. Superior spreading provides maximum coverage and control using less bait per m<sup>2</sup> (use only 40 lentils or 0.6g per m<sup>2</sup>) thanks to years of research and development.
