Advanced-bio Home Insect Killer Spray

Organ-X Spray with Bio-Trap Insect Technology

Works by physically entrapping insects in a unique biodegradable vegetable polymer (backed by 2 years of development & testing). Designed to halt and immobilize insects by coating on contact. Due to the physical mode of action, flying and crawling insects cannot become resistant to the formulation. Organ-X Spray controls all stages of an insect's life cycle including eggs, larvae, nymphs, pupae and adults on contact.

Instructions for use:

BEDBUGS – Spray directly and thoroughly on bedbugs. Do not spray directly on birds, animals, plants or persons. Make sure insects are sprayed with a good coating. Due to the mode of action, bedbugs coated with Organ-X Spray are scientifically proven to die after a few minutes without the need for insecticide intervention. Pay close attention to bed frames, mattresses, furniture, drawers, shelving, skirting boards, wardrobes, luggage, cracks and crevices. For behind plug sockets and hard to reach areas, use alongside Organ-X Contact Home Insect Killing Powder for ultimate control.

FLEAS – Always shake well before use. Spray directly and thoroughly on fleas. Do not spray directly on pets, animals, plants or persons. Apply onto all surfaces where fleas are located, including carpets, soft furnishings, pet bedding and hard-to-reach areas such as cracks and crevices. Leave for at least 30 minutes, allow to dry and remove excess liquid if not required.

For heavy infestations (any eggs, nymphs, adults not coated by product) apply initially, repeat 3 days later and then use weekly as part of your regular cleaning routine. Re-introduce pets once treatment is complete.

CARPET BEETLES/CLOTHES MOTHS – Organ-X Spray is an effective way to control both carpet beetles and moths, including eggs, larvae and pupae in and around the home. Can be used on furniture and floor areas.

FLIES – Spray directly at flies, maggots and pupae. Spray with a good coating. For use around the home including refuge/bin/waste areas.

For complete home insect control, use alongside Organ-X Contact Home Insect Killer Powder.

Always read the directions of use before applying. Test spray on a small inconspicuous area to check surface compatibility.

**DO NOT SPRAY FOOD CONTACT SURFACES.
KEEP IN A DRY AND COOL PLACE.
KEEP AWAY FROM HEAT AND DIRECT SUNLIGHT.
STORE IN ORIGINAL CONTAINER, TIGHTLY CLOSED.
KEEP OUT OF REACH OF CHILDREN.
KEEP AWAY FROM FOOD, DRINK AND FEED.
INDOOR & OUTDOOR USE.**
